ASK YOUR CHILD ABOUT:

What color did we paint our dinosaurs?

What is your favorite dinosaur?

Which was the longest dinosaur?

The students were fascinated about the size and shape of the many different types of dinosaurs that used to roam the earth. We measured the length of the dinosaurs using string down the long hallway. The boys and girls were amazed they were so long. Their most favorite dinosaur was the T-Rex because it was so big and scary. We talked about how the other dinosaurs had special armor to protect them from his sharp teeth.

We are sending home field trip shirts. It really helps us out to have your child wear this shirt on field trip days so we can easily identify our whole group. Your child will keep this shirt.

Here are some upcoming dates to put on your calendar:

*Nature Walk - Sept 25th

*Pumpkin Trip - Oct 16th

ASK YOUR CHILD ABOUT:

What did the Professor talk about dinosaurs?

What is your favorite dinosaur?

Which was the longest dinosaur?

Whenever dinosaurs are mentioned, visions of great beasts come to mind in both children and adults. The students were fascinated about the size and shape of the many different types of dinosaurs that used to roam the earth. Their most favorite dinosaur was the T-Rex because it was so big and scary. We talked about how the other dinosaurs had special armor to protect them from his sharp teeth.

We are planning a field trip to the apple orchard on September the 17th. If you can help drive to the apple orchard it would be greatly appreciated.

The snack bucket will be coming home to you. We are doing a fun thing with it. The snack will go along with the Letter of the Week. Ex. A-apples, B-bananas, C-cookies, etc. This is a great way to be creative and fun. If you needs some ideas just ask me. Thanks so much!!
